

CARRIAGE LIGHTS

The goal of the Architectural Review Committee (ARC) is to maintain streetscape consistency with regard to the design of carriage lights installed on residences within the Whisper Dunes community. **No carriage light shall be installed on any residence without prior written approval of the ARC.**

An Alteration Application for the proposed lights must be submitted to the ARC through the Whisper Dunes HOA website. The Alteration Application must include a description of the proposed light, including manufacturer and a photo of the light to be installed. An application submitted without proper description and photo, shall be denied.

To maintain uniformity, replacement lights fixtures shall be the same style & color as originally installed, including shape and size. Light fixtures should be black. The light should have a glass cylinder that hangs from the holder with the light bulb opening at the bottom.
